Caring for your flowers

The best way to care for your eternal flower arrangement is with a minimum of care. Very little is required on your end apart from, to cherish them for many years.

The eternal flowers are real and naturally grown, therefore they will be delicate. Yes, they are preserved fresh flowers, but they are preserved in order to maintain their natural beauty and appearance. You will soon realise they both look and feel like any fresh cut flower.

Tips for maintaining your Preserved flowers:

In order to best maintain these eternal blooms, there are a few things to remember:

- Do not handle or touch the flowers unless necessary. The natural oils in our hands can damage the flower and repeated touching will break off pieces of the petals. The best practice is to keep touching to a minimum.
- Do not water the flowers. These flowers are no longer alive, so they do not require watering!
- Keep the flowers out of direct sunlight. Sunlight can cause the colours of the flowers to dim or fade, so it is best to keep your flower display away from the sun.
- If you need to clean your eternal flowers, only do a light dusting with a soft dusting tool. Do not wipe down or spray with chemicals, this will damage the blooms.
- Environmental factors can sometimes damage the flowers. Differences in heating, air-conditioning, fragrances, and placement in your home can cause the flowers to degrade at a faster or slower rate. Climate and Humidity are also important factors.

We cannot account for each factor that may or may not have an adverse effect on the eternal blooms in our flower displays. Please always take care, but realise that natural products such as these are all unique and vary in their ability to withstand the environment they are placed in.

Why not add Macarons to your gift ↙

“Designer-rons” and “Macaron-pops” make a great additions to our gifts especially the floristy vases, some already come with them, others you have the option to elevate your gift by adding them. You can choose to add designer-inspired macarons “Designer-rons” or “The Macaron-popsicle” The Macaron-popsicle can also be transformed into a high-fashion treat with a designer-ron variation also.

- Macaron-Pops €7.50 which is 3 Macarons
- Designer-ron Pops €10.50 which is 3 Macarons, 2 of which are Designer-rons
- Singular Designer-rons are €3.50 per Macaron
